COLLEGE PREP PROGRAMS

SAT PREP

We focus on improving the specific verbal, math, and writing skills that are tested by the SAT. Using diagnostic exams, paying careful attention to time constraints, and giving students important test-taking strategies, we simulate actual test conditions.

GETTING BACK ON TRACK

Whether students are struggling in school, or simply need a little extra assistance, The Enrichment Centers can help! We have helped countless individuals graduate through innovative tutoring solutions tailored to the student.

ALTERNATIVES TO COLLEGE

We assist not only those planning to attend college right away, but also help graduates find their way in other walks of life. Whether a student is considering a technical or trade school, a community college, a full-time job, study abroad, or any other path, we help take all the different options into consideration to determine which path makes the most sense.
