GIFTED & TALENTED

This small group tutoring program focuses on the unique concerns of gifted children and their families. Dr. Pat Webbink, the director of The Enrichment Centers, has over 20 years of experience working with gifted and talented children and has helped design the program. A dynamic curriculum and specially trained staff tap each student's skills, talents, and interests in order to motivate, challenge, and engage them fully in the learning process. Each child is different, and so is each tutoring session! Activities range from reading & writing to computer/internet applications depending on students' skill levels and interests!
